

I have been recently made aware of the proposed campaign to expand the LPFM service to other current FM translators. Our family , church as well as hundreds of thousands of others listen to this station and letting LPFM stations take priority would either take KLOVE off the air or perhaps leave us without the signal to listen to it. Please don't let this happen. This station is vital to those who are being uplifted daily by their positive messages and music. Thank you very much for your consideration in this matter.
